Come Live With Us.

# Volunteer Drivers Needed

Seniors 65+ and persons with a disability find that not having affordable, sufficient transportation available in their community is a barrier to independent living. Therefore a new collaboration between our two organizations has been put in place to minimize this barrier. The Algoma Manor van has been made available to the Dr. Trefry Centre two days a week for scheduling transportation of its clients. As a volunteer you would receive training in the use of this accessible van and would be driving it up to two days a week to take clients to appointments/shopping/social events ect.

As a volunteer you can expect to:

- Drive up to 2 days/week
- Be away for 1/2 - full day
- Be scheduled by The Dr. Trefry Centre at your availability
- Help people living between Thessalon and Echo Bay, including St. Joseph Island

**For more information please contact:
